

Insulated "C" Clamp, Come-A-Long, and Skinning Knives

Insulated "C" Clamp

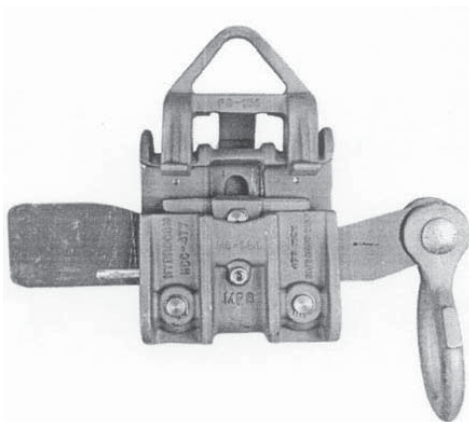

Features

- For installation over flexible line hose
- Fiberglass reinforced polyurethane body
- Door can be opened with insulated tools or with insulated gloves
- Special mechanism allows door to remain in open position even if support is upside down
- Accommodates class 4 type 2 orange cell core flexible line hose

Material

Fiberglass reinforced polyurethane body
 Polymer insulator
 Aluminum pole clamp

Catalog Number	Weight Ea (lbs)
HC-10305	4.5

Come-A-Long

Features

- Used in-line for pulling of power cables
- Safety lock that keeps the come-a-long on the conductor
- Floating keeper for better alignment on conductor
- Slide bar is locked when safety lock is up and in use
- Hardened steel rollers for smooth operation
- Can be installed with an operating stick
- Easy to operate

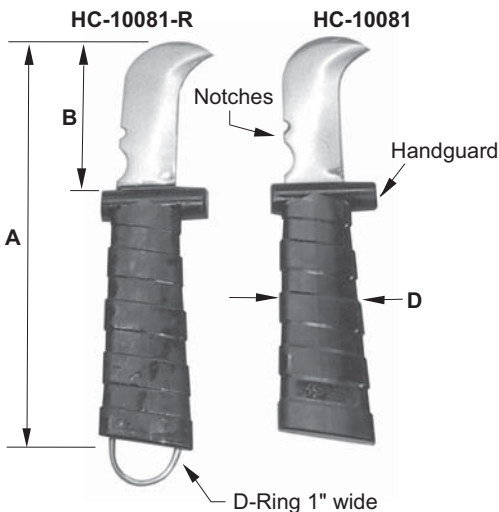

Material

Body: Aluminum
 Rollers: Hardened steel
 Hardware: Stainless steel

Catalog Number	Description	A	B	C	Conductor Range	Max Work Load (lbs)	Weight Ea (lbs)
HCC-477L	Left	12	5	5	#4 - 477 ACSR (0.25 - 0.81)	4500	3.8
HCC-477-R	Right	12	5	5	#4 - 477 ACSR (0.25 - 0.81)	4500	3.8

Notes:

1) For aluminum conductors ONLY (not for use on guy wire or copper conductors)

Skinning Knives

Features

- Equipped with a handguard to prevent injuries
- Grooved handle for a better grip back of blade contains two notches for cleaning conductors

Material

Blade: Tempered steel
 Handle: Polyurethane
 Dee-Ring: 0.120" diameter steel knickel plated
