

# Pole Roofs and Pole Steps

## Pole Roofs

Pole roofs are designed to protect the most vulnerable part of the pole above ground.

### Features

- Easily installed with 10 broad head galvanized nails included
- No danger of radio interference as with a metallic cap

### Material

Long life non-metallic roofing material

| Catalog Number | Pole Diameter Range (in) | Weight/100 (lbs) |
|----------------|--------------------------|------------------|
| J2108          | 5-8                      | 64               |

## Detachable Pole Steps

Detachable pole steps prevent unauthorized climbing to the point on a pole where permanent steps are installed.

### Features

- Special 9/16 x 4" fetter drive lag screw permanently attaches the mounting plate to the pole
- Twisting is prevented by a punched projection
- Nail hole is provided
- Can be hung from lineman's belt
- When attached, extension is 5 1/2"

### Material

Steel hot dip galvanized

| Catalog Number | Description            | Weight/100 (lbs) |
|----------------|------------------------|------------------|
| J6235          | Pole Plate & Lag Screw | 64               |
| J6236          | Step                   | 59               |

## Pole Steps

### Features

- Rolled fetter drive threads and a wide, flat driving surface make installation fast and easy
- Knurled ring indicates the proper driving depth

### Material

Steel hot dip galvanized

| Catalog Number | Size (in) | Weight/100 (lbs) |
|----------------|-----------|------------------|
| J1118          | 5/8 x 10  | 98               |
